*"Whether you are the proud owner of a cat or a dog, one of the most rewarding parts of the journey is watching their antics. However, no matter how hard you try, you never seem to be able to catch those moments just right, therein comes the beauty of the wonderful video that Tears of Joy Video did for me with my two cats. I now have, forever, a video of them at play, at rest or just hanging out, not just pictures but real action. Doing this is an investment you will never regret."*
