## Creating A Wedding Memory To Last A Lifetime

We here at Tears of Joy Video love weddings because we are hopeless romantics. We love to get a ringside seat as we watch our clients bubble over about their wedding plans. We see the parents well up with memories of their children as they have grown up are starting a life of their own. We watch as friends goggle over the childhood photos.

A wedding is a milestone that makes everyone sit up and take notice. What we do is turn that milestone into a priceless memory.
